ArcGIS Online

Alfredo Frauenfelder

May 7, 2012

ArcGIS Online is . . .

- ArcGIS, available to you as an Online, Cloud based system
- GIS delivered using a Software as a Service model
- Available for use at arcgis.com
  - on smart phones, tablets and desktops

ArcGIS Online lets you . . .

- Easily Administer your cloud GIS and manage
  - Users
  - Content
  - Security
- Share and Collaborate with others using Groups.
- Integrate in content from your ArcGIS Servers
  - Register services for centralized Search and Discovery
  - Use services to build Web Maps and Apps

ArcGIS Online includes Hosted Services

- Publish your maps and data to the web without having to deploy your own GIS Server
- Publish your data as tiles and as features.
- Tile generation service renders your tiles in the cloud from your uploaded data.
- Performs and Scales without you having to worry about it.

Watch these short videos to quickly get started making maps and apps.

Start ArcGIS Explorer Online »

Use this rich application for transforming your data into beautiful maps and presentations that tell powerful stories.

ArcGIS Online Provide Access to:

- Maps – Create, share, and publish your own maps.
- Storage – Create, share, and store your own data.
- Apps – Create, share, and publish your own apps.
- Templates – Use ready-to-go templates.
- Basemaps – Use ready-to-go basemaps.
- Groups – Create and manage groups for resources and people.

Make your own map
It's easy to make your own map. Just follow these steps:
1. Choose an area.
Pan and zoom the map to an area or search by its name or address.
2. Decide what to show.
Choose a Basemap then Add layers on top of it.
3. Add more to your map.
Create an editable layer to draw features on the map.
Display descriptive text, images, and charts for map features in a pop-up.
4. Save and share your map.
Give your map a name and description then share it with other people.
